AIRTRONIC MINI-CONTROLLER

EN

QUICK START GUIDE

- Rotary knob, temperature preselection
 - left limit approx. 8 °C
low heat output
 - right limit approx. 34 °C
high heat output
- Heat
- Red LED – heating operating check
- Switching off
(in individual mode only)
- Ventilation
- Blue LED – ventilation operating check

MINI CONTROLLER IN INDIVIDUAL OPERATION (STANDALONE)

Starting the heater – Heating mode:

Press the  button to start the heater in heating mode (continuous operation). You can use the rotary knob  to set the required temperature. The red LED lights up as a check.

Starting the heater – Ventilation mode:

Press the  button to start the heater in ventilation mode (continuous operation). The blue LED lights up as a check. The rotary knob  has no function in ventilation mode.

Switching off the heater:

Use the  button to switch off the heater. Heating and / or ventilation mode is ended and the corresponding LED goes out. Heating mode is ended with an after-run.

NOTE

This quick start guide is a quick overview and cannot replace the detailed operating instructions. These are located on the enclosed CD or can be viewed and downloaded from the download centre under www.eberspaecher.com.
